

TABLEAUX DECORATIVE GRILLES PRODUCT COMPARISON TABLE

	TABLEAUX [®] ELEMENTS	TABLEAUX [®] VENEER	TABLEAUX [®] FAUX IRON
Suggested Design Styles	Contemporary, Modern, Industrial/Urban (Metal-like)	Contemporary, Natural, Organic, Rustic, Farmhouse	Classic, Traditional, Industrial/Urban (Iron-like)
Applications	Window Treatments, Ceiling Treatments, Decorative Architectural Accents, Partition Screens & Room Dividers, Custom Wall Art, Miscellaneous Décor	Window Treatments, Ceiling Treatments, Decorative Architectural Accents, Partition Screens & Room Dividers, Custom Wall Art, Miscellaneous Décor	Window Treatments, Ceiling Treatments, Decorative Architectural Accents, Partition Screens & Room Dividers, Custom Wall Art, Miscellaneous Décor
Material	Sustainable, environmentally friendly, Class 1 flame retardant, industrial-grade MDF recycled wood fiber panel	Sustainable, environmentally friendly, pre-consumer MDF recycled wood panel covered with real hardwood walnut veneer	Sustainable, environmentally friendly, industrial-grade MDF recycled wood fiber panel. Class 3 flame retardant
Substrate Characteristics	Premium industrial-grade. Semi-smooth metal-like texture on surface areas with medium-rough texture on inside cuts NOTE: 1" thick material will have rougher texture on the inside of cuts	Premium industrial-grade. REAL hardwood walnut woodgrain veneer on surface areas with medium-rough texture on inside cuts	Standard industrial-grade. Rough iron-like texture on surface areas and inside cuts. NOTE: 1" thick material will have a rougher texture on the inside of cuts. Exterior material will be rougher on both surface and inside cuts
Environmental	SCS Certified. SCS Validation (No added formaldehyde). FSC-C017580. ECC Certified Spec CPA ECC 4-11. CARB TPC-1 (NAF Exemption due to synthetic resin system). NYC MEA Approved. LEED 2009 & v4 Credits (ask)	CARB CPA TCP-1 Certified, SFI Certified, SCC Accredited CB-P/S	INTERIOR MATERIAL - SCS Certified. FSC-C017580. ECC Certified. SCS Validation (no added formaldehyde). LEED 2009 & v4 Credits (ask). CHPS Compliant. CARB TPC-1 (NAF Exemption due to synthetic resin system). EXTERIOR MATERIAL - CARB Compliant. SCS-MC-01802 (No added formaldehyde). LEED 2009 Credits (ask). NAHB Credits (ask)
Fire Rating	Substrate attains Class 1 (A) flame spread classification	Substrate attains Class 3 (C) flame spread classification. May be coated to achieve Class 1 (A) for an additional fee	Substrate attains Class 3 (C) flame spread classification. May be coated to achieve Class 1 (A) for an additional fee
Usage	Suitable for interior or exterior use. Industrial-grade, UV protective clear coat is applied for exterior use (additional fee applies).	Suitable for Interior use only	Suitable for Interior or exterior use. Exterior material is pre-treated to resist moisture, rot, and termites
Finish Colors	Nine standard. Virtually unlimited custom finish colors. (Additional custom finish color fee applies)	Nine standard (look of restored wood*). Non-standard custom finish colors are not available	Nine standard (three organic**). Limited custom finish colors available (ask). (Additional custom finish color fee applies)
Board Thickness	½", ¾", 1" NOTE: 1" thick material will have a rough texture on the inside of cuts	¾" ONLY	½", ¾", 1" (¾" and 1" only for Exterior substrate) NOTE: 1" thick material will have a rough texture on the inside of cuts.
Maximum Single-Board Sizes <small>Multiple boards may be joined, mended, or framed (additional may fee apply)</small>	48" x 96" for 1/2" board thickness 60" x 120" for 3/4" & 1" board thickness	47" x 119"	Interior substrate - 60" x 120" Exterior substrate - 48" x 96"
Carving Options	Non-beveled, single-sided bevel, double-sided bevel	Non-beveled only	Single-sided bevel, double-sided bevel
Limitations	Not for structural applications. (May be reinforced with optional metal or aluminum rail or frame)	Not for structural applications. (May be reinforced with optional metal or aluminum rail or frame)	Not for structural applications. (May be reinforced with optional metal or aluminum rail or frame)

*Tableaux Veneer uses a substrate made from thin slices of hardwood walnut sheeting glued onto MDF panels. The walnut veneer is harvested from real trees. Since every tree is different, every board of veneer will have varying color and grain pattern variations which can affect the final finish color.

**Iron Full Rust, Iron Light Rust and Patina Bronze finishes are organic finishes applied using natural chemical processes (e.g. oxidation). Clients should expect some color variations and an overall rougher texture on these finishes. Custom colors applied to Faux Iron will have the look of painted wrought iron.
